FIRST APPEARANCE!

IN BELLEVILLE, OF THE

WARFS

Announcement will be made in a few days of this special attraction that has been brought at a heavy expense for presentation to the public here, especially the young population.

In the Black Forest and Hartz Mountains of Germany, are a race of DWARFS who carry on the trade of charcoal burning and blacksmithing chiefly, for a living. They are a very industrious and moral class of people and stand from three-and-a-half to four fe t high.

In connection with the above we might say that we

ARE READY FOR BUSINESS:

with our new season's goods, and the display is immense in all that goes to make up a store and stock such as no other can show in a hundred miles.

Think of 150 patterns to choose from and this, with the lower prices than small dealers is just why we do the trade.

It's a show in China, Crockery, Glassware and Silverware wo:th going a long way to see.

FIRST APPEARANCE

IN BELLEVILLE, OF THE

WARFS

Announcement will be made in a few days of this special attraction that has been brought at a heavy expense for presentation to the public here, especially the young population.

In the Black Forest and Hartz Mountains of Germany, are a race of DWARFS who carry on the trade of charcoal burning and blacksmithing chiefly, for a living. They are a very industrious and moral class of people and stand from three-and-a-half to four fest high.

In connection with the above we might say that we

ARE READY FOR BUSINESS:

with our new season's goods, and the display is immense in all that goes to make up a store and stock such as no other can show in a hundred miles.

Think of 150 patterns to choose from and this, with the lower prices than small dealers is just why we do the trade.

It's a show in China, Crockery, Glassware and Silverware worth going a long way to see.

is doing well. We sell goods cheap and the people know it.
Frosh lines are being added every day. Only cost price is asked, but we are satisfied to turn the goods into cash even at a loss and clear up the stock.

W. FLINT JONES. BRIGNALL & THOMPSON,

ARE YOU SURE YOU KNOW A GOOD CIGAR ?

"RELIANCE

If You do, You Are the Man We Want to Talk to !

Can there be any earthly reason why as good a Cigar-cannot be made in Canada as in Havana, supposing the same tobacce and the same skilled Isbor be employed? Certainly not. Then why do you pay the duty on imported goods? Simply because of your prejudice. And what has created that prejudice? Undow'betdy it has come from the misrepresentation reserted to by unreliable Car adian manufacturers.

Now, when we tell you that nothing but the HIGHEST GRADE OF HAVANA TOBACCO and the most skilful labor are employed in the manufacture of the "Refinece" 19 cent Cigar, you may be sure it is the truth, and you can verify it yourself. All that is asked of you is to compare this Cigar with the best Havana you can procure; let the compariton be honest, and we will abide by the result.

TO GIVE

Breaking in isn't needed with the Ball corset. It's easy from the start. Coils of tiny wire start. Coils of tiny wire springs in the sides make it so. Try it, and you'll like it. If you don't, after a few weeks' wear, just return it and get your money.

ARE YOU SURE YOU KNOW A GOOD CIGAR ?

RELIANCE

If You do, You Are the Man We Want to Talk to !

Can there be any earthly reason why as good a Cigar cannot be made in Canada as in Havana, supposing the same tobacco and the same skilled labor be employed? Certainly not. Then why do you pay the duty on imported goods? Simply because of your prejudice. And what has created that prejudice? Undoubtedly it has come from the misrepresentation resorted to by unreliable Caradian manufacturers.

Now, when we tell you that nothing but the HIGHEST GHADE OF HAVANA TOBACCO and the most skillal labor are employed in the manufacture of the "Reliance" 10 cent Cigar, you may be sure it is the truth, and you can verify it yourself. All that is asked of you is to compare this Cigar with the best Havana you can procure; let the comparison be knoest, and we will abide by the result.

MR, Edgart is well qualified for the position which he seaks, and is by his length
of service in the Council and the able and
faithful performance of his duties at the
Aldermanio board—of which he has been

seaks. The Alderman by plexing him in

Two days more to hustle. We're deing all we can. A lot of specialties for Wednesday and Thursday. Prices and assortment is what does it. We stick to our own trade and we thank you very much for staying with us.

Are You "In the Swim?"

"In the SWIM?"

In the West End of London, Eng., the fashionable quarter, it is not now considered "the proper thing" to wear Rubber waterproofs.

Among the "smart" set it is looked upon as "bad form," and as much out of place for a Man to wear a Rubber waterproof as for a Woman to to wear a Bubber waterproof as for a Woman to to wear a Bubber waterproof as for a Woman to wear a bustle.

When a new article suddenly springs into favor and is almost universally adopted, you may be sure it must possess extraordinary merit. "MELISSA" COATS seem to meet every requirement of Health, Comfort and Fashion, and gratily every taste. They are produced in an infinite variety of textures, patterns and styles. To any intelligent person the mere mention of the many advantages of "MELISSA" RAINPROOF GARMENTS over the old Rubber article is sufficient.

No dampness, no chills, no odor no pulling

sufficient.

No dampness, no chills, no odor, no pulling apart at the seams. A Rainproof and Overcoat combined, with all the advantages of both.

If You Wear a "Melissa" Coat You are "in i 'in it."

Are You "In the Swim?"

In the West End of London, Eng., the fashionable quarter, it is not now considered "the proper thing" to wear Rubber waterproofs. Among the "smart" set it is looked upon as "bad form," and as much out of place for a Man to wear a Rubber waterproof as for a Woman to wear a Rubber waterproof as for a Woman to wear a Rubber waterproof as for a Woman to wear a bustle.

When a new article suddenly springs into favor and is almost universally adopted, you may be sure it must possess extraordinary merit. "MELISSA" COATS seem to meet every requirement of Health, Comfort and Fashion, and gratify every taste. They are produced in an infinite variety of textures, patterns and styles. To any intelligent person the mere mention of the many advantages of "MELISSA" RAINPROOF GARMENTS over the old Rubber article is sufficient.

No dampness no chills no older no million.
